## **PUBLIC WORKSHOP TO DISCUSS ENHANCED VAPOR RECOVERY FOR ABOVEGROUND GASOLINE STORAGE TANKS**

Dear Sir or Madam:

The Air Resources Board (ARB) staff will hold a public workshop to provide stakeholders with an update of staff effort to determine the number of aboveground storage tanks (ASTs). Other items such as monitoring of existing tanks will also be discussed. These activities will support the development of proposed Enhanced Vapor Recovery (EVR) regulations for gasoline dispensing facilities using AST. The purpose of EVR is to seek additional emission reductions by increasing the stringency of performance standards and specifications for vapor recovery systems.

The workshop will be held at the following date, time, and location:

**DATE:** Wednesday, November 3, 2004

**TIME:** 1:30 p.m. to 3:30 p.m.

**LOCATION:** California Air Resources Board  
Monitoring and Laboratory Division  
1927 13th Street  
Second Floor Conference Room  
Sacramento, CA 95814

Arrangements will be made to provide teleconferencing at this workshop. The workshop agenda including teleconferencing information and workshop presentation will be available electronically prior to the workshop at [www.arb.ca.gov/vapor/vapor.htm](http://www.arb.ca.gov/vapor/vapor.htm).

This meeting location is accessible to persons with disabilities. If you have special accommodation or language needs, please contact Elizabeth Mongar at (916) 327-0900 as soon as possible. TTY/TDD/Speech-to-Speech users may dial 7-1-1 for the California Relay Service.

The workshop location is within three blocks of light rail. The enclosed map shows the location of a nearby vehicle parking facility. Please note street parking is generally limited to one-hour and is strictly enforced.

*The energy challenge facing California is real. Every Californian needs to take immediate action to reduce energy consumption. For a list of simple ways you can reduce demand and cut your energy costs, see our Website: <http://www.arb.ca.gov>.*
